AHS 65th Annual Forum & Technology Display

**Please note that you can view information on FORUM 65
on the AHS International web site at**

In the pages of this program you'll see what is awaiting you at the AHS International 65th Annual Forum and Technology Display. You'll learn why this is the essential technical conference and technology display to attend and truly one of the professional highlights of the year.

A Message to all FORUM 65 Participants:

Global expansion has dynamically changed the way aviation companies conduct business. Whether you are seeking out new customers or expanding your manufacturing base, staying connected to key international representatives has become essential for success.

This year's Annual Forum and Technology Display (Forum 65), with its Texan theme of "Gallopings Towards New Vertical Flight Advancements," returns to The Gaylord Texan Resort & Convention Center in Grapevine, Texas.

Back for a return engagement, the Historical Film Festival will feature rare footage of significant, exotic and exciting (and sometimes humorous) moments of rotary wing and V/STOL heritage. Vertical flight curator for the Smithsonian Institution, Roger Connor, will lead the audience on a guided tour through the drama of pioneering flight and early operations. Individual clips of 1-5 minutes in length are interspersed with insightful commentary and historical context. Attendees are guaranteed to see something new, regardless of how long they've been in the industry.

Forum 65 will explore cutting-edge technology advances with chief executives from AgustaWestland, Bell Helicopter Textron, The Boeing Company, Eurocopter, Lockheed Martin, Sikorsky Aircraft Corp. and others during the popular session "Straight Talk from the CEOs."

Forum 65, which attracted more abstracts than any other Forum in the Society's history, will offer more than 230 technical papers focusing on aircraft design, acoustics, propulsion, avionics, UAVs, test and evaluation, operations, and more. In addition, prize drawings will take place in the Exhibit Hall during refreshment breaks Thursday morning, Thursday afternoon and Friday morning. All paid Forum 65 registrants will be eligible to be selected to receive these highly coveted GPS navigation units. All of this will take place in the mammoth venue of the Gaylord Texan in Grapevine.

Attending FORUM 65 offers your company networking opportunities with high quality attendees from across the spectrum of vertical flight markets. These key decision makers address vital issues of the vertical flight industry and include representatives from the Department of Defense, NASA, DARPA, the Department of Transportation, the FAA and their international counterparts. In addition, top ranking officers from the military source selection communities of the US Army, Navy, Marine Corps, Air Force, and Coast Guard will be on hand to listen to your presentations and assess your offerings relative to their procurement and contracting needs.

Plan now to be with us May 27-29, 2009 in Grapevine, Texas. You will not want to miss the Distinguished Technology Panel and the Historical Film Festival; the Nikolsky Honorary Lecture; the US Army Aviation Briefings, the US Navy/USMC Briefings, the receptions and the Grand Awards Banquet.

We look forward to hosting a highly successful even. So mark your calendar for FORUM 65 - and gallop towards new vertical flight advancements.

Very truly yours,

M. E. Rhett Flater
AHS Executive Director

"The Department of Defense finds that this event (FORUM 65) meets the minimum regulatory standards for attendance by DoD employees. The finding does not constitute a blanket approval or endorsement for attendance. Individual DoD component commands or organizations are responsible for approving attendance of its DoD employees based on mission requirements and DoD regulations."

FORUM 65 Proceedings

Proceedings will be available in two formats - printed or the CD-ROM version.

AHS Member: \$205
Non-Member: \$255

FORUM 65 Proceedings, both printed and CD-ROM versions, contain nearly all papers presented at the technical sessions and will be available for purchase on-site or attendees may order proceedings by completing the registration form. Individual papers will be available by mail from AHS Headquarters beginning in mid-June 2009. Purchased copies may be mailed upon request.

AHS FORUM Give-Away

Pick up your Lockheed Martin-sponsored FORUM 65 give-away at the AHS Novelty Desk in the Registration area.

Publication Bins

Publication bins will be located in the registration area stocked with industry relevant periodicals and literature.

Message Board

A message board for FORUM 65 attendees will be located in the AHS Registration area. Messages will be posted alphabetically. Attendees are encouraged to check the board for messages throughout the day. Additionally, any last-minute changes to the Schedule of Events will also be posted next to the Message Board.

Speaker Ready Room

Speakers may organize and review their presentations in the Speaker Ready Room. Hours are from 7:00 a.m. - 5:00 p.m. on Tuesday, Wednesday and Thursday and from 7:00 a.m. - 3:00 p.m. on Friday.

AHS Novelties

Novelties are available at the AHS International Novelty Desk. AHS publications, shirts, hats, mugs, key chains, golf balls and other new novelty items will be available for purchase at the Novelty Desk located in the AHS Registration area.

Technology Display

Be sure to make ample time to visit the FORUM 65 Technology Display in the Exhibit Hall. Companies and organizations will be presenting the latest developments in vertical flight technology and showing the advancements in V/STOL airframe, propulsion, avionics, systems integration, simulation technology and much more. AHS has expanded exhibit hall hours at Forum 65 to give attendees more time to peruse the interesting displays. Also three prize drawings will be held during refreshment breaks in the Exhibit Hall to increase attendance.

To maximize the opportunity to view exhibits, the Exhibit Hall Technical Briefings and social events such as lunches and the Exhibitor/Industry Reception are held in the Exhibit Hall. The technology display is open to registrants and invited guests. AHS reserves the right to make modest changes to the Exhibit Hall hours without advance notification to exhibitors or registrants.
